Note: Jack doesn't embarrass people, make them: bark like a dog, act like a chicken, or divulge family secrets and it's impossible to get stuck in hypnosis. Subjects don't lose control, he can't make anyone do something against their will or hypnotize those who don't want to be. Jack only wants fun loving guests who want to be hypnotized. Those on stage will have the most fun, feel relaxed and as a thank you he'll program them with self confidence and to feel comfortable speaking in front of groups 3 to 300...even help with phobias or bad habits after the show.

He is a certified member of both the National Guild of Hypnotists & the International Medical & Dental Hypnotherapy Association®. In addition Jack conducts corporate & private sessions on Stop Smoking, Weight Control, Relaxation and Self Confidence.
